This unit is called Blast Rating or BLS. All the ships from First Edition are playable in Second Edition but not all of them have yet been rereleased in a dedicated Second Edition expansion pack there's so many it'll take years to get through them all! If you search ebay in the wargames section for gaming mat, you will find several different designs. You will make it harder for the enemy to outflank you.

Refer to the Weapons table in the data spreadsheet for the full report. There are definite ways to solve the puzzle.

Game Control :: STAR WARS™: X

X-Wing squadbuilding has flexible points costs that FFG update bi-annually to keep the game in good balance. If your opponent has a large based ship, try grouping three or more asteroids close together in a triangle remember they must be one range unit apart. Note: X-Wing doesn't feature tractor beam weapons, so you don't get to see these in action though most capital ships are armed with them.
