**Faith and Moral Development // Youth and Religion // University of Notre Dame**

Troeltsch, it may be noted, had some effect on the sociology of religion—e. Thesis, Case Western Reserve University. The implication of these results for educational programs and counseling strategies were discussed and recommendations for future research were suggested.

**Oraison, Marc [WorldCat Identities]**

Because Durkheim treated the totem as symbolic of the god, he inferred that the god is a personification of the clan. The sample consisted of 99, adolescent, Hispanic males recruited as volunteers from a California high school.

**Why Should I Study Religion?**

For Bultmann, the mythological elements were belief in the pre-existence of Christ,

demonology, and various other elements of the Judeo-Christian-Hellenistic world view. Abstract: Four groups of a total of 272 Ss ranging in age from 15 to 72 yrs were assessed with respect to the relationship between various aspects of religion and their level of moral development Kohlberg Moral Judgment Test and Defining Issues Test. Children and worship, L Weil.

### **Congregation for Catholic Education (for Educational Institutions)**

Without that element, no emotion would be religious. Furthermore, the God of Christian tradition is not utterly incapable of being affected by human beings. In contrast, the church was as a bastion of structure, logic, and reason for its era.

### **17.6 Trends in Religious Belief and Activity**

Washington, DC: United States Conference of Catholic Bishops.

### **17.6 Trends in Religious Belief and Activity**

We return to this function later. Raising self-esteem will not by itself make young people perform better in school, obey the law, stay out of trouble, get along better with their fellows, or respect the rights of others, among many other desirable outcomes.

### **What role do religion and spirituality play in mental health?**

Abstract: Addresses 3 questions: a Does cognitive development continue across the life span? This is done by restricting all factor covariances to be identical across groups. Once I realized that I had given up all childhood supernatural beliefs except religion, I realized that religion really was imaginary too. I would often weep for extended periods of time causing onlookers to ask if there was something wrong with me.
