Timothy Patrick McCarthy and John Stauffer New York, 2006 , 200—219.

**What Twenty**

Arguably one of the first books in the genre of popular science, it contained few diagrams and very little mathematics.

**What Twenty**

This survey cannot be comprehensive but seeks instead to clarify current debates in a field long defined by distinct interpretive schools—such as those of the progressives, revisionists, and modernization theorists—whose boundaries are now blurrier. During the same period, London's water supply network was expanded and improved.

**Tennessee**

The literary figures were caught in something of a trap — their business was writing and their theology said there was nothing for certain to write.
