Ibn ‘Aṭā’ Allāh, Aḥmad ibn Muḥammad,

So I took my dagger and put it in her stomach till I had killed her.

Tafsīr al

Marginalia During his studies, a student may not be able to consult the detailed commentaries. Are you the one who killed her? And in these situations, the restriction is removed, and these women and children revert back to the original ruling of the People of kufr- permissibility. This is a substantial gap.

The Contribution of the Scholars of Deoband in the Field of Hadīth

Written Contributions The scholars of Deoband have made noteworthy contributions in the dissemination of Hadīth by means of publishing classical Hadīth books, making their own personal compilations, and making valuable manuscripts of classical hadīth available for scholars and students. And if they are killed, then the Muslims will lose much benefit.

Badā'ī' al

The recompense for an evil is an evil like thereof, but whoever forgives and makes reconciliation, his reward is due from Allāh. The most extensive work in this regard was written by Mawlānā Muḥammad Zakariyyā Kāndhlawī in Arabic entitled al-Abwāb wa al-Tarājīm, recently published in six large volumes. You have an oath from me! If all of you were to say what she had said- then I would strike you all with my sword till either I had been killed, or till all of you were killed! This is how we regard them, but we do not sanctify anyone before Allāh.

Ābenbaringsforme me

Do not kill a child! And as for the non-Muslims- the original ruling is not sanctity- rather, it is permissibility.

Badā'ī' al

Or is it unrestrictedly forbidden, like adultery and sodomy? *Mishkāt al-Masābīh* *Mishkāt al-Masābīh* of al-Khatīb al-Tibrīzī is one of the most circulated and studied Hadīth books in the Indian subcontinent.
