Looking at History: Educating the middle

Carroll and the teaching of Mathematics and Geometry in the Victorian era Carroll, a middle-class student, was educated at good schools at a time when England did not even have schools for all. Some of the key locations have shrunk absurdly small: the brick chapel where Billy gripped the Bible and harangued us with the backing of his three trustiest prefects: Jesus, the Holy Ghost and God.

Lewis Carroll, education and the teaching of geometry in victorian England

The Victorian era was, therefore, a period of great changes spread by an ever increasing number of publications and readers. The population doubled from 1750 to 1820, and then doubled again to 1870. Of those grammar schools, 100 schools became fully independent, 50 became comprehensive schools.

School

According to these schools, which were originally intended for the education of poor students, soon began to be almost entirely attended by the children of the wealthy. Many moved to the industrial cities and cheap child labour was prevalent.

A short history of education in England

With a growing open access offering, Wiley is committed to the widest possible dissemination of and access to the content we publish and supports all sustainable models of access.

Victorian Schools

Many Britons left the country in search of better work and living conditions, while others flocked to cities in the United Kingdom for whatever jobs they could find. As time went on and more men became interested in furthering their education, more universities such as Durham and Birmingham I thought particularly of the 45,000 under-10s in the UK who are in local authority care today.

Lewis Carroll, education and the teaching of geometry in victorian England

These upward trends in businessmen sending their sons to public school and in public schoolboys entering business were to be of great importance. An unexpected consequence of this new school building initiative was that Church schools doubled in number to 12,756 by 1895, capitalizing on the 50% maintenance grant. I know they loved me.
