Instagram and any other platform of social media are full of portraits of dogs or cats. A prop can be anything like a hat, or a pair of goggles, or even a ball of wool. Dangling a feather toy next to the camera works well for cats, while a piece of meat should do the trick for a dog.

WinkFace Photography

Interactions with other dogs or cats or any other species can look cute in your photos. Take a round of the site to get familiar with the place and decide some nice spots for the shoot.
