III Alternatives to Market Competition 1945. They chart not only Neurath's varied interests in the economic history of antiquity, in war economics and schemes for the socialisation of peacetime economies, in the theory of welfare measures and social indicators and in issues of the theory of collective choice, but also show his philosophical interests emerging in his contributions to seminal debates of the German Social Policy Association.

Economic Writings

The resulting decisions, it is claimed, would therefore be made without sufficient knowledge to be considered rational. In Duhem and Poincaré, general considerations are not only exemplified, but the origins of the concepts and of the problems are traced right from the initial observation of facts if at all possible. Whereas in the magical age, empirically given facts were linked with each other on the basis of primitive theories without the introduction of uncontrollable elements, now their introduction becomes essential.

In response, Cockshott argued that the economic system is sufficiently far removed from a capitalist free-market economy to not count as one, saying: Those that Hayek was arguing against like Lange and Dickinson allowed for markets in consumer goods, this did not lead Hayek to say: Oh you are not really arguing for socialism since you have conceded a market in consumer goods, he did not, because there remained huge policy differences between him and Lange even if Lange accepted consumer goods markets. No term of unified science, however, is free from imprecision, since all terms are based on terms that are essential for protocol statements, whose imprecision must be immediately obvious to everyone.
