And that's all and good for a couple of lines, but there were millions. The world of Laxness is one of ambiguity. He attended the technical school in Reykjavík from 1915 to 1916 and had an article published in the newspaper in 1916.

Stjórnarráðið

The five strings of the poet's harp were the strings of joy, sorrow, love, heroism and death. Having been to the country helps fill in the details that the brief descriptions provide within the text.

The language is often spiritual and biblical, and resoundingly beautiful—that is undeniable. So I am of two minds; it is a sad book and yet it is a story of hope.

Heimsljós (Laxness) (The LiederNet Archive: Texts and Translations to Lieder, mélodies, canzoni, and other classical vocal music)

I found myself returning to Goodreads to try to understand how the majority of reviewers had unequivocally handed it 5 stars, with little success. What mattered was that this was his secret, his dream, his refuge; in short, it was his book. Weak and extremely unloved by all, he lives a bleak existence that somehow never quite becomes bitterness.

Heimsljós

Unlike Wolf Hall, for example, which was a great read, but one I haven't thought about once since This novel is SO bizarre and requires patience but two months later I'm still thinking about it. He wrote novels, poetry, newspaper articles, essays, plays, travelogues and short stories.

The Wilde like aphorisms on love and poetry and politics started weighing me down. Heimsljós er margslungið átakaverk, áhrifaríkt, fyndið, róttækt og kraftmikið.

These two books are something on another level altogether.
