An Overview on China's Nuclear Weapons Program

BRI provides China a unique platform to pursue its multiple objectives.

China (People's Republic of China)

In the case of abuse, the Commission shall decide whether the requesting State Party should bear any of the financial implications. For the purpose of helping to ensure verification of compliance with the provisions of the Treaty, and as required by paragraphs 4, 5, 12, and 13 of Article IV of the Treaty, each Party shall conduct exhibitions of heavy bombers equipped for nuclear armaments, heavy bombers reoriented to a conventional role, and heavy bombers that were reoriented to a conventional role and subsequently returned to a nuclear role.

Use Outer Space to Strengthen U.S.

The US Global Hawk was designed for reconnaissance. These six satellites completed the regional network as well as their orbit validation phase for the global network, expected to be completed by 2020. Major changes in these industries will have a significant economic and social impact in the region primarily in Mexico, Central America, and the Caribbean.
