For example, take the remote Yupik Village of Newtok, Alaska, located in a zone of discontinuous permafrost along the Bering Sea.

Monitoring the Effect of Nearshore Development and Production in the Beaufort Sea

Finally, the EPA used the results of mapping the Massachusetts Bay disposal site in revising regulations for its management. Department of the Interior, Minerals Management Service, Pacific OCS Region, Los Angeles Calif. Baranskaya, 2018: Hydrometeorological forcing of western Russian Arctic coastal dynamics: XX-century history and current state.

Trace metals in sediments from the inner continental shelf of the western Beaufort Sea

The socio-economic consequences of an increasingly dynamic system will become a recurring theme and have a profound impact across the Arctic, influencing human decision making and adaptation planning. Since the early 2000s, observations from 14 coastal permafrost sites have been updated, providing a synopsis of how changes in the Arctic system are intensifying the dynamics of permafrost coasts in the 21st century Table 1; Fig.

Nearshore sediment dynamics : Beaufort Sea (eBook, 1986) [styleguide.expo.io]

The long-term effects of the Amoco Cadiz oil spill. In addition, many biological habitats in the nearshore and offshore regions are being affected by such human activity as waste disposal, seabed disturbance from fishing gear, and overfishing.

Abundance and Production Rates of Heterotrophic Bacterioplankton in the Context of Sediment and Water Column Processes in the Chukchi Sea

Department of the Interior, Minerals Management Service, Vienna, Va.

The composition and distribution of saturated and aromatic hydrocarbons in nearshore sediments, river sediments, and coastal peat of the Alaskan Beaufort Sea: Implications for detecting anthropogenic hydrocarbon inputs

Recent changes in these conditions have increased the vulnerability of permafrost coasts to erosion and altered coastal morphologies Farquharson et al.
