My contention is that most of this is highly irresponsible. But the work of the outsider will be history or sociology and not theology.

Whitehead developed a penetrating analysis of this process that takes full account of physics and physiology and is effectively integrated into his account of human experience. He discusses the response that is appropriate to it and how it binds men together in fellowship. Whitehead's most complete work on education is the 1929 book *The Aims of Education and Other Essays*, which collected numerous essays and addresses by Whitehead on the subject published between 1912 and 1927.

For example, an anthology titled *Philosophers of Process* includes selections from Samuel Alexander, Henri Bergson, John Dewey, William James, Lloyd Morgan, Charles Peirce and Alfred North Whitehead, with an introduction by Charles Hartshorne. This teaching is clearly inconsistent with Scripture.

Every criterion we establish to evaluate our claims to truth must be recognized as itself involved in the finitude it strives to transcend. Obviously I have chosen him because I am persuaded by him. An exact replacement of Whitehead's cosmology would need to admit a Riemannian geometry.
