Hazed by the smog: where does Asia's air pollution come from?

Why shouldn't the people that allowed this be held responsible? You managed to get the point delivered based on statistics. I live in a rural town in New Jersey and have been enjoying the country life for a little over a year.

Environmental movement

They did put a collective boot in the butt of the APCD and others that, we can't wait a generation to cure this. It identified Lahore as one of the top 50 global NO₂ hotspots. My home has always had a fully ducted heat pump system which is about 30 years old.

Lahore smog isn't Indian farmers' fault alone. Pakistan must look within

The report also detailed efforts by the Trump Administration to undo air-pollution regulations and clean-air initiatives. It is worst when the winds turn southerly as there are several neighbours with log burners along the terraced houses.

Fighting Smog in Los Angeles

We endured never ending downwind exposure to wood burning emissions from indoor and outdoor wood burning. Too many people don't care about the issue because their lungs are still good enough that they don't notice. I could smell smoke in my bedroom.

BBC ON THIS DAY

Wood burning is a choice and not a necessity, especially in the desert where our temperatures in the winter months are mild.

What Policies Can Governments Implement to Lower Pollution Levels?

The last few years we have noticed a dramatic increase in neighborhood smoke that is so thick you can taste it.
