Cold Pea Salad (Amazing Summer Salad)

It is lower in protein and vitamin A with more variation in nutritional components than cereal grains such as barley. The nutrient profile of whole-plant sorghum silage is equal to corn silage.

styleguide.expo.io: Ensure 100% Plant

No other classes of beef or dairy cattle are covered under this clearance. Grazed turnips can be used as high-quality forage for yearling cattle or grazing lambs, a means to improve cow nutrition or to flush ewes prior to breeding. It is high in escape protein.

Alternative Feeds for Ruminants — Publications

Wheat is high in energy equal to corn and contains more protein 13 to 15 percent than pigeon grass seed. Canola Forage, Grazed Little information is available regarding canola as a forage crop.

Cold Pea Salad (Amazing Summer Salad)

In grazing scenarios, ruminants preferentially will consume grain and leaves before consuming lower-quality stalk material.
