### MS Publications

Unlike many other publications on this topic, each author approaches the alternative medicine in a critical, scientific and objective way. People with MS often have low levels of vitamin D, and researchers have suggested that upping vitamin D levels may help. Autoimmune disease can affect all parts of the body.

### Researchers may have discovered a cause of multiple sclerosis

This may be oversimplified in medical standards and I might not have the writing elegance of a professional medical journalist but I do have enough care and compassion for anybody affected by MS to voice my humble opinion. In a , 36 percent of women participants decided not to have children at all or postponed the timing of getting pregnant due to their MS.

### Multiple Sclerosis: Facts, Statistics, and You

Please discuss any options with your healthcare provider.

### The ReMar Review Quick Facts for NCLEX by MSN RN Regina M Callion

You can develop MS at any age, but most people receive diagnoses between the. This business can be very judgmental.
