FERC issues Rio Grande LNG with Final Environmental Impact Statement

Follow this link for additional details on the. In addition, Annova LNG will restore and enhance over 250 acres of wetlands and shallow water habitat. The end point was selected in 2013 when the project was led by a consortium of North Slope producers.

Jordan Cove LNG receives final EIS

FERC regulations are found in Title 18 Code of Federal Regulations. Western LNG, a Houston-based company, is developing its first floating LNG production facility on the upper coast of British Columbia, Canada. And Yukon Pacific received a final EIS in 1995 for an LNG terminal in Valdez to export North Slope gas.

Initiatives: Western Energy Company Rosebud Coal Mine Area F Expansion Project

During review, the proposed project must demonstrate how it is consistent with the enforceable policies of the Oregon Coastal Management Program. We are committed to the cause of reducing the climate impact of oil and coal-fired electric generation overseas, as well as for our project facilities and those of our partners.

Initiatives: Western Energy Company Rosebud Coal Mine Area F Expansion Project

Our Sources Donald Trump, , Aug. Poor economics killed both projects.

Environment

The 6-month review period ends October 12, 2019. On October 9, 2009, the New York City Planning Commission and the Metropolitan

Transportation Authority, acting as co-lead agencies, issued a for the Western Rail Yard project.
