### About

With full support from USC, Farhang Foundation spearheaded this initiative with one goal in mind: to create a thriving and comprehensive Iranian Studies program at USC. They are also the individuals who will later be our cultural ambassadors to the community-at-large. Help support and promote Iranian arts and culture for generations to come! In 2015, Farhang Foundation and the University of California, Irvine UCI launched the first ever Persian Studies minor program in the School of Humanities.

### Description: Farhang

Community-at-large We feel that Iranian art and culture can contribute positively and should be woven into the multi-colored tapestry of great cultures that comprise America.

### Programs

Iranian Americans These are the custodians of one of the richest cultures in the world and benefit from learning more about their art and culture. Through Farhang Foundation your donation will help spread awareness and understanding of our beautiful Iranian culture and heritage in many ways.
