The former film has stretches of smooth and graduated changes in colour value, and while the latter has what could be described as slow rotations of colour analogous to the gradual changes marked in Ray Gun Virus, it is composed largely of short bursts of colour. As early as the summer of 1865, only a few months after Christiane's death, the tone of Jakob's letters had grown less discontented, and in one of them he told his son with satisfaction that he had at last found a good place for his mid-day meal.
