Beschreibung und Abbildung neuer oder kritischer Land- und Süßwasser- MoUusken. It is an ascertained fact that many individual birds return year after year to build their nests in the same spot.

## An annotated type catalogue of seven genera of operculate land snails (Caenogastropoda, Cyclophoridae) in the Natural History Museum, London

The inconsistency of mentioning heat in connection with ice and snow is more apparent, however, than real, for we must remember Tyndall's original remark on this subject. The history of the British fauna is not only of interest to us from a sentimental point of view, it is a convenient starting-point in the study of the larger European problem.
