Technology and its impact in the classroom

Recent findings have shown that at-risk students in grades k-12 are being deprived of challenges and of the chance to use complex thinking skills. The age of the child and their developmental stage must be taken into account when considering computer use.

8 Fun Activities for Virtual Learning

Word processing programs with speech feedback or screen-reading programs enable students to hear words as they are being encoded and to listen to their running text after it has been created.

Creative Teaching and Teaching Creativity: How to Foster Creativity in the Classroom — Psych Learning Curve

Certainly, the concepts presented are solid; they don't change with passing years. Also, the differing ways of presenting research I found to be useful for students to think about their project beyond a stapled stack of pages, and to expand that to differing modes of communication and presentation.

Composing Thoughts · 4/14 Online Writing

Many individuals who have more severe motor impairments than Jeff cannot use a standard keyboard.

Collaborative writing with computers and children's talk: A cross

Examine your own attitude toward creativity and help yourself grow by thinking about alternative solutions. The knowledge that the teacher has with technology can help the student in their quest of writing. Hillsdale, NJ : Lawrence Erlbaum Associates.
