Canada 1 inch to 1 mile (1:63,360)

This ratio was adopted as the standard for all 15' quadrangles. Distributor of aluminum sheets including extra wide and long aluminum sheets.

Map scales

Options including painting, anodizing, heat treating and seamless drawn or extruded construction. If the intended metal facing has formed edges, the overall standard blank size should always fall within the above dimensions.

Map scales

Map scales Map Scales In order to make topographic maps useful for relating the position of features on the map to the actual land surface, conventions of scale have been standardized.

Hard To Find Sheets

UNDER NO CIRCUMSTANCES CAN ANY DECORATED METAL SHEETS BE WELDED BECAUSE IT WILL DESTROY THE DECORATIVE FINISH IN THE WELDED AREA. The specifier should avoid specifying highly decorated facings with metal which is too thin for the intended purpose.

4) Standard Drafting Sheet Sizes

Packaging services and same day delivery available for most orders. Available in different aluminum alloy grades, thicknesses from 28 gauges to 8 gauges and a variety of metal finishes. The common and standard map scales are: 1:1,000,000 for area of 4° to 6° 1:500,000 for area of 2° to 3° 1:250,000 for area of 1° to 3° 1:125,000 for 30' quadrangles 1:62,500 for 15' quadrangles 1:24,000 for 7½' quadrangles A map scale defines the relationship between distance on a map and the corresponding distance on the ground.

4) Standard Drafting Sheet Sizes

Capabilities include Six Sigma manufacturing, lean manufacturing, research and development, engineering, casting and rolling.

Hard To Find Sheets

Available in different grades of aluminum alloys such as 5052, 5454, 5754, 5083 and 5086, thicknesses from 0. Aluminum sheets in 2024, 2124, 2219, 6061, 7075, 7175 and 7475 grade alloys are available.

4) Standard Drafting Sheet Sizes

. Tubes, forgings, castings, coils, shims, round and flat bars and other forms are also available. Therefore, a ratio map scale of 1:62,500 is considered to represent a ratio of 1 inch to 1 mile.
