Hakaluki Haor In Sylhet ~ Easy World

Recent events The international significance of the wetlands of the haor basin for their waterfowl populations was first drawn to the attention of the international conservation community at an International Regional Meeting on Conservation of Wildfowl Resources held in St. Two villages Sonapur and Velagaon from Jaifarnagar union, and two villages Sreerampur and Mulajuri from Talimpur union were selected using the same procedure.

Haor based livelihood dependency of rural community: A study on Hakaluki Haor in Bangladesh

Between 1974 and 1987, the country earned Tk 315,170,000 by exporting live turtles Source: Export Promotion Bureau.

CAB Direct

In the few instances where order of magnitude estimates are possible and useful, these are presented below. Most of it is owned by a small number of rich farming families. Only about 20,000 of the 30,300 waterfowl recorded were resident birds and hence potential breeding birds.

Poverty status of a critical wetland area : Hakaluki Haor

Several of these, notably the weavers and munias, are seed-eaters, and can become serious pests in the rice crop, while others, such as various species of wagtails, pipits and warblers, are insectivores and are probably beneficial to the farmer. The wetlands are recognized as containing very rich components of biodiversity of local, regional and national significance.
