Slot cars in the digital age

With the help of this excellent book I've put together a massive 24'x 8' Carrera layout top shelf reliable stuff. Link to an audio of an interview with Carrera president Ed Gershowitz at. Ed's comments match what I've been seeing in the last few years, too.

I'd recommend Scalextric Digital also, Chris.

Illustrated throughout with color photography and track plan line art, this is the book that no serious slot car racer can afford to be without.

Considerabl space is devoted to layouts for palstic track, the emphasis being on tracks suitable for home use rather than club tracks. Schleicher also provides track tests of 70 cars and a slot-car shootout featuring 23 more vehicles. It would be great if they would get to a common standard, then it may really take off!! Lots more info on digital slots over there than here, but that's not to say that info and discussion on digital is unwelcome at Slotblog in any way.
