## Protecting Health Information: the HIPAA Security and Breach Notification Rules

Those contractors, pursuant to Section 842 of had to meet the following criteria as part of the waiver determination: 1 A demonstrated successful record of compliance with the NISP assessed by the CSA; and 2 previously been approved for access to proscribed information as indicated in CSA FCL records.

## Federal :: National Industrial Security Program Operating Manual (NISPOM)

When submitting a request for a waiver, the contractor will, in writing, explain why it is impractical or unreasonable for the contractor to comply with the requirement it is asking to waive, identify alternative measures as prescribed by this rule, and include a proposed duration for the waiver. It is best, therefore, to assume that any and all actions taken or activities performed using University computing services are not private.

## Electronic Monitoring

The contractor will prepare written procedures when the CSA determines them to be necessary to reasonably exclude the possibility of loss or compromise of classified information, and in accordance with additional CSA-provided guidance, as applicable. Contractors may obtain security, threat awareness, and other education and training information and material from their CSA or other sources.

## Computer Misuse Act

Contractors will follow the guidance established in b for the reproduction of classified information.

## Policy 2500: Acceptable Computer Use :: University Policy

Counterintelligence means information gathered and activities conducted to protect against espionage, other intelligence activities, sabotage, or assassinations conducted for or on behalf of foreign powers, organizations or persons, or international terrorist activities, but not including personnel, physical, document or communications security programs. A cleared employee must always be appointed to fulfill the requirements of

these positions in accordance with this rule. In addition, there a number of sector-specific privacy laws that impose notice obligations, significantly limit permitted disclosures of personal information, and grant individuals the right to access or review records about the individual that are held by the regulated entity.

### **Concepts of Information Security**

All information gathered shall not be retained for a period longer than five 5 to ten 10 years.

### **Internet Use Policy**

The government determined that this type of arrangement between providers and consultants is ripe for upcoding, unbundling, and other manipulation, which increases costs to the Medicare program
