Pediatric and Adolescent Gynecology

Office visits with our young patients include a thorough history and, if necessary, a limited physical examination only after a discussion with the patient and their care giver, followed by a full discussion of diagnosis and treatment options.

Pediatric and Adolescent Gynecology

We go beyond diagnosing and treating gynecologic conditions; we educate and empower our patients to be active and engaged in their own health care as they develop into adulthood. Conditions we treat include changes in genes or chromosomes, problems with hormones or issues with the testicles or ovaries. Please note the locations below and follow the links for maps and directions.

Pediatric and Adolescent Gynecology

Washington state privacy laws make it complicated for parents and caregivers to access teen health information. This means a quicker return to school, sports or other activities. .

Pediatric and Adolescent Gynecology

During COVID-19 Coronavirus Outbreak We are still scheduling appointments for new and existing patients. We provide expert gynecologic care with compassion and respect, giving special care to the emotional needs of our young patients. Rarely, surgery is considered for labial conditions.
