Scarlet Fever Epidemic 1874

The Allman family of George Allman agricultural labourer married to Mary, lost two of their four children, John aged 12 and Elizabeth aged 4. From January until July five children up to 10 died of all causes in Weaverham, During the epidemic from August until December 42 children had died, of all causes.

Elk Grove elementary student has scarlet fever, parents told

Even to this day, I remember coming home from Sunday school, and listening to the announcement with my family in the kitchen. My favorite memory from high school was when I got a job at the local dairy barn my senior year.

Epidemiological study of scarlet fever in Shenyang, China

In October of 1957, I had my first son Dave, in 1959 I had my second son Dan, and in 1963 I had my daughter Dawn. It also support that some meteorological effects were opposite in different period although these differences might not completely statistically significant. There are hotspot areas located in seven districts.

Effects of meteorological factors on incidence of scarlet fever during different periods in different districts of China

Once we were officially married, I stayed with my mother until he returned from service in 1957. Upstairs was a small back room for lodgers and in a room lay a little girl in whom the fever had turned to dropsy, and by her side lay another in an earlier stage of the disease.
