Resources for Families Coping with Mental and Substance Use Disorders

Handling unusual behavior The outward signs of a mental illness are often behavioral. There are real limits to the effectiveness of any treatment. These resources can assist the family in making a plan to manage a volatile situation and in setting limits.

Relationships, family and mental health

Attention Deficit Hyperactivity Disorder Although ADHD is not technically a mental illness, it has the same symptoms as one.

Supporting a family member with serious mental illness

But we do not fully understand how this works.

Mental Illness in Families

. If you have a family history of mental illness it can still help to take good care of your mental health.

Does mental illness run in families?

Families may become angry and frustrated as they struggle to get back to a routine that previously they have taken for granted.

Does mental illness run in families?

These children have a higher risk for developing mental illnesses than other children. If you think you or someone you know may have a mental or emotional problem, it is important to remember there is hope and help. The pastor should continually remind them that it is necessary to take time for themselves, despite the demands of assisting their family member.
