### Korea

This knowledge as well as the acquired experience in tool development and platform management will be exploited by LinkedTV partners in future projects and consultancy offers. By documenting emerging lessons from the histories of various national educational technology agencies and their functional equivalents, which are typically responsible for similar roles but which can differ radically in form by country and over time, it is hoped that this publication can help inform perspectives of decision makers considering how to create and support such an institution, the forms it might take, what roles it might take on, and how these forms and roles might be expected to evolve over time.

### Slovenia

. A key challenge for the Public Demonstrator is to achieve a clear communication of the meaning of Linked Television in an uncomplicated and non-technical manner, despite presenting highly innovative technology which is potentially disruptive to the traditional TV viewing experience.

### Welcome to G5

A total of 28 centres for adult education are involved in these pilot projects. Some may confuse an executive summary with an abstract but, in reality, they are clearly distinct from one another and serve a different purpose. The programme focuses on workshops, use of new technologies in higher education and the promotion of modular education and interdisciplinary studies.

### EngiRank

The impact of COVID 19: Regulatory updates 2. The Electoral Court started implementing biometric identification in the electoral process in 2012.

### EUR

Target groups: HEIs, credential evaluators, students, employers, policy makers, EQF NPCs and National Europass Centres. On the other hand,

middle managers will want a head start on these reports so they can also anticipate and prepare for any reaction from the top executives. A module is the smallest part of a programme to be certified, corresponding to a certain content, size and level.

#### **A Guide to the Development Communications Archive, 1960**

KWPF is funding activities in various stages of implementation that are demonstrating some promising early results. Skills for the National Development Board Skills for The National Development Board have been established, made up of key stakeholders.
