Histology Schools & Programs

The rest of the lectures will be in person.

Histology Schools & Programs

Work environment Technicians typically work early hours in clinical pathology or private laboratories so slides can be ready for the pathologists when they begin their day.

A Manual for Histologic Technicians, 2nd Edition, by Ann Preece

You do not need certification for employment as a histologist, but it is highly recommended. Students learn standardized lab skills and methods, such as tissue fixation, processing, embedding, sectioning and staining, necessary to become a histotechnologist. The Histotechnology program is designed to develop technical and intellectual skills as well as developing individuals with a commitment to quality patient care, a passion for the profession, and continued growth within the field.

29

The program combines basic science, general education, histology theory and laboratory practice. Vision: The Histology Technician program will offer an unparalleled educational experience by consistently providing high quality histology curriculum in a blended learning format. The stained tissues can lead to routine and special identification of bacteria, fungi, cancer, and tissue structure abnormalities for pathological diagnosis.

Histology Schools & Programs

Possible ex library copy, will have the markings and stickers associated from the library. The lecture courses are designed to provide the necessary knowledge to pass the national registry exam. The student attends lectures and participates in student lab activities at the Coleman College of Health Sciences.

29

Required general-education courses may be transferred from any accredited college or university or you can complete them through the Indiana University School of Continuing Studies independent study courses. Scope of practice Histology technicians work with pathologists and lab managers. Job openings for medical and clinical lab technicians, including histology technicians, are expected to increase faster than average according to the.
