Romantic Era: Kubla Khan by Samuel Taylor Coleridge: A Critical Analysis

Pearl is a religious dream-vision in which the dream is largely taken up by dialogue between the narrator or dreamer, as a figure in his dream, and a woman who is a fount of divine wisdom.

Preceding writers had indeed laid down rules for the constitution and form of a poem; they had shewn where the more solid materials of an edifice of that kind were to be obtained; they had given direction for the arrangement of the parts; and had even descended so far as to offer their instructions respecting the proper disposition of ornaments. When these are united in a poem strictly philosophical, on a subject of no less importance than an investigation into the phenomena of the human mind, it not only charms and delights, but also in a very high degree improves the reader.

Poem: Pleasures of Imagination, The

We may interpret and debate an author's message by examining the words he or she chooses in a given novel or work or observing which character or serves as the connection to the reader. The works of Scott, Byron. On every part They trace the bright impressions of his hand: In earth or air, the meadow's purple stores, The moon's mild radiance, or the virgin's form Blooming with rosy smiles, they see portray'd That uncreated beauty, which delights The mind supreme.

The pleasures of imagination : a poem in three books : Akenside, Mark, 1721

But still the rage of dire ambition and gigantic power, From public aims and from the busy walk Of civil commerce, drove the bolder train Of penetrating science to the cells, Where studious ease consumes the silent hour In shadowy searches and unfruitful care. In focusing on the portrayal of invisibility in The Two Merry Milkmaids, the book explores early modern preoccupation with processes of visual construction in a play in which there is very little artisanal activity.

The Pleasures of Imagination by Akenside Mark

The manner of Mark Akenside's didactic poem is Miltonic rather than Spenserian, though its neoplatonic imagery, if not derived from Spenser, influenced later Spenserian poets, beginning with Collins's Ode on the Poetical Character 1746.
