Corrections All material on this site has been provided by the respective publishers and authors.

## Trend in life expectancy at birth and at age 65 by socio

Factors associated with prostate specific antigen testing in Australians: Analysis of the New South Wales 45 and Up Study. Although socioeconomic inequality in NMR trends seems to have decreased over the last two decades in LMICs, there remains an inequality in access to appropriate NMR interventions i.

## Trend in life expectancy at birth and at age 65 by socio

Data Cleaning Process The data on RIP. The portion of household air pollution dominates in LICs; it dramatically decreases in wealthier societies, in particular, UMICs and HICs, and increases in LICs and LMICs. Finally, county-level socioeconomic data are available from the census, and cause-specific mortality data are available from the vital statistics.
