New faces and new directions heading into the New Year

He looks forward to continue working with ACE as a project manager and is excited to work alongside others who share his passion for the natural world. In her spare time, you can find her rallying on the tennis courts or playing spikeball on the beach. Linnea loves reading, hiking, climbing, and spending time with her dog Moose! Ian has spent 10+ years fulfilling various restoration roles for the National Park Service including lead supervisor for the Lake Mead Invasive Plant Management Team, Vegetation Manager for the Southeast Utah Group, and as a wildland firefighter at Grand Teton National Park.

New faces and new directions heading into the New Year

Most of its flights are short hauls averaging about 590 miles.

Resources

During his time with SCA, he oversaw program development, financial management, compliance, and risk management for upwards of ten regional urban conservation programs.

Sustainable Development in Construction: Change Our Thoughts, Change Our Management

I became a Crew Lead in 2019 and was trained on chainsaw and crosscut; October 2020 I accepted the PW Logistics Coordinator role and helped build out the Ridgecrest branch and am currently continuing that role in Sacramento. He has since enjoyed leading crews on trail and restoration projects across the varied biomes of California wilderness. Serious Games Serious games are an educational tool aiming at developing skills or teaching formal contents through a playful interface.

Southwest Airlines Operations

This course discusses the ways in which caregivers can make a positive difference and promote the healthy development of children in their care.

Kris brings unique experience and perspective as an HR professional because she comes from field programs. Positive impacts include reductions in air pollution and new tax revenues from renewables.

COVID

This time spent in the woods encouraged Cody to pursue a degree in Forest Resources from Penn State, focusing on the social and ecological components of prescribed fire. As a result, there is a rapid global spread of the virus due to, inter alia, a lack of adequate coordination, transparency, cooperation, preparedness, and inadequate mitigation policies—all exacerbated by economic greed and short-sightedness.
