Decide exactly which skills you want to evaluate, since this will determine the nature of the assignment and how you evaluate it. The writer will need to know exactly what is expected of them as they are completing their assignment. Therefore, just as you have to clearly state the limitations of a , you must describe the specific limitations inherent in the subject of analysis.

## How to Build Writing Skills in Students With Dyslexia

For example, familiarity with the process approach to writing allows a teacher to help students recognize the steps they go through to create a written text, which should lead to less stressful and more motivated writing.
