For example, our mind has an idea of ice and an idea of coldness and joins them together: All ice is cold. It is radical conditions which have changed, and only an equally radical change in education suffices. A fast-talking young priest from New Jersey with a penchant for getting into trouble.

CLAA * Catholic Education: Everything Parents Need to

Would it be Greek for the original writings of the Greek philosophers and New Testament? It seems obvious to all that the study of the physical world is of the utmost importance—but it was not so admired by Plato. Anyone who reads Boethius today probably reads his famous work: the Consolation of Philosophy.
