Modelling impacts of chemical fertilizer on agricultural production: a case study on Hooghly district, West Bengal, India

The workforce is increasingly young, male and migrant with less experience in and intention of staying in the agricultural labor market. The Origins and Spread of Agriculture and Pastoralism in Eurasia, UCL Books, London, pp.

Trends in Agriculture — Agricultural Law and Management

Revolution Down on the Farm: The Transformation of American Agriculture since 1929 first ed. · Complete current efforts and continue to streamline the H-2A temporary nonimmigrant agricultural guestworker program without weakening protections for U.

Increasing global crop harvest frequency: recent trends and future directions

The development of land for agricultural use often involves deforestation, including cutting down of trees within the river floodplains. Agriculture is the mainstay of the people of the district with rice being the prime crop. We conducted practical, on-the-ground research, primarily with the private sector but also with governments and development partners in agriculture in Africa.

Performance of the agricultural sector

Lost in translation—basic science in the era of translational research.

USDA ERS

Long-term fertiliser nitrogen needs to enhance wheat yields and grain protein. The H-2A program certified 23,745 jobs in 1988 compared to 34,898 in 1998, an increase of nearly 50 percent.
