Region 9

The peoples in the Americas created a variety of agricultural systems that were suited to a wide range of, from southern Canada to southern South America and from high elevations in the Andes to the lowlands of the.

East and Southern Africa

Most of the country has semidesert conditions with erratic rainfall and poor soil conditions, making it more suitable to grazing than to crop production. They compared the DNA of these individuals with that of skeletons that were a couple of thousand years younger and had been found way on the other end of the Fertile Crescent, a region that includes modern-day Turkey.

Where Did Agriculture Begin? Oh Boy, It's Complicated : The Salt : NPR

But it is not one melting pot. That suggests that the descendants of the early farmers from Zagros probably migrated east, taking their farming techniques to that part of the world.

Agriculture and Natural Resources

Traditional export include coffee, cotton, cashew is estimated to be 7. Among this population males represent 47.
