### Explore Sydney's Mysterious Underground Tunnels

They were included to provide a frame for the arch panels and to give better visual balance to the bridge. James Station, located in the central business district, there was meant to be a major hub. In its last form, the battery consisted of three sandstone gun emplacements or pits with embrasures for the guns to fire through.

### St James station, Sydney: Abandoned underground's eerie world

In addition to the lines now in use, a double track railway was to be built from Gladesville joining the City Circle on its western arc and leaving it on its eastern side for Watson's Bay and the South Eastern suburbs.

### Tunnels Under Sydney

In addition to the secret tunnels, another spooky fact about Central Station is rarely known by commuters. Those who claim to have a relationship with the spirit world say they have seen the spectre of one victim - Emily Bollard - roaming the area at night. Under Pitt Street is a series of tunnels built over 130 years ago and stretching from Circular Quay to Newtown.

### Sydney's underground Bunkers tunnels and forts

Ghost hunters at Macquaire Fields train station in the city's southwest claim to have seen a ghostly apparition clutching her bloodied chest and shrieking in terror.

### Sydney toll roads, motorways, bridges and tunnels

In less than two years, on Tuesday, 19 August 1930, the two halves of the arch touched for the first time. Pylon Lookout: Sydney Harbour Bridge. As construction of the approaches took place, work was also started on preparing the required to support the enormous weight of the arch and loadings.

### Tunnels Under Sydney

The Georges Head battery is one of three forts in the area that were built for the purpose of defending the outer harbor. When construction of the fort was complete, there were a total of 41 gun emplacements positioned around the harbor.
