Hazardous Waste Generator Regulatory Summary

Justice Powell joined both Geduldig and General Electric. In response to a petition for rehearing, a majority of the Ninth Circuit panel concluded that its original decision did not conflict with Gilbert. Therefore, a regulatory assessment is not required.

Title 40 Part 266 Subpart p

However, the interim final rules do not prevent a plan or issuer from requiring precertification for any portion of a stay after 48 hours or 96 hours , or from requiring precertification for an entire stay.

Federal :: Approval and Promulgation of State Implementation Plans; City of Albuquerque

If the SO 2 milestone is exceeded, the trading program will be activated.

Hendin, Seduced By Death: Doctors, Patients, and the Dutch Cure 1997.

Office of Management and Budget

Response: We recognize that the 2018 SO 2 milestone equals the BART benchmark and that the benchmark generally utilized the presumptive limits for EGUs, as was deemed appropriate by the States who worked together to develop the trading program. The BC RH SIP is a necessary component of the regional haze plan for the entire State of New Mexico and is also necessary to ensure the requirements of Section 110 a 2 D i of the CAA are satisfied for the entire State of New Mexico.

Office of Management and Budget

Sources that make early reductions prior to the program trigger year may acquire extra allocations should the program be triggered.
