30 Collaborative Art Projects That Bring Out Everyone's Creative Side

Thanks for reading and supporting WeAreTeachers! Make sculptures by dipping yarn in glue and attaching a paper purple crayon to the end.

20 Creative DIY Project Ideas

If you like to sketch and paint, give this one a try! Print PAW-some footprint art Combine storytime with creativity in this kindergarten art project! Left Brain Craft Brain — This is one of the those craft activities that takes a little investment, but you can use over and over again! A random application is key for a more believable look. Cut and paste color wheel flowers This might look like just another cute kindergarten art project, but really, the goal is to teach the color wheel concept. Book Writing When my kids are really interested in something, making a book about the topic is great way to encourage creative thinking, even if the topic is Minecraft or Shopkins! You can make just one, or as many as you wish.

50 Kindergarten Art Projects Your Students Will Absolutely Love

This will make room for extra bar essentials, with examples of this being a refrigerator, storage cabinets and barstools to allow you to accommodate more people. Roll along with paper coils This collaborative art project is perfect for using up scraps of paper. Weave a collection of circle art The secret to this stunning collaborative art project? Avoid ink-jet printers; use a laser printer, or enlist your local copy shop for help.

Creative DIY Paint Projects to Try This Weekend

Use different recycled paper for colorful unique beads! The backyard is one of the most overlooked spaces in the home, a factor that may be closely linked to its underutilization.

Creative DIY Paint Projects to Try This Weekend

All you need is black paper, chalk for the stems, and paint for the flowers.

Creative DIY Paint Projects to Try This Weekend

Put Up a Fence Whether you want privacy from your neighbors or are looking for a way to create order in your backyard, a fence is another item to add to your creative homeowner outdoor projects. Draw on plastic bags with washable markers, then spray them with water and press a piece of paper over the top. Getting this option will require you to have significant backyard space, with its addition often requiring intense labor during the installation process.

40 of the Best Art Projects for Kids

Slide pastel art into mini photo albums Kids love to experiment with different art supplies. Metal fireplaces are other options to consider, as well as brick and copper materials.

30 Collaborative Art Projects That Bring Out Everyone's Creative Side

Then arrange them into whatever design your students fancy. The full size water beads will unthaw, shrink, and then grow in size again.
