Intuition about causality suggests that the length of the shadow is caused by the height of the flagpole and the elevation of the sun. Conceptual metaphor in everyday language.

### Connectedness & Health: The Science of Social Connection

The combination of intervention and control in experiments makes them especially effective ways to identify causal relationships.

### Race Is a Social Construct, Scientists Argue

Once we do so, we begin to respond to those people more as members of a social group than as individuals. Most poignantly, a landmark survey showed that lack of social connectedness predicts vulnerability to disease and death beyond traditional risk factors such as smoking, blood pressure, and physical activity! She also explored ways to extend these techniques to psychosomatic diseases and health issues. Organizational

scientists accumulate histories of organizational foundings, mergers, and failures, and of various actions of organizations e.
