Small states in the international political economy.

## Reconstruction of the full transmission dynamics of COVID

Furthermore, individual variation in infectiousness—such as superspreading events—is known to result in a higher probability of stochastic extinction given a fixed population  $R_e$  ref. When Europeanisation meets diffusion: Exploring new territory. How, if at all, can these trends be reversed? Regional Actors in the United Nations.

## The Dynamics of Chinese Regional Development: Market Nature, State Nurture by Jane Golley

ROs with broad policy scopes include the EU 21 , APEC 20 , the EAEU 20 , SICA 18 , or PIF 18 ; c. All of the analyses were performed in R version 3. In Functionalism and International Organization.

## The Asia

For each dataset, we applied our MCMC method to estimate  $b_1$ ,  $b_2$ ,  $r_1$  and  $r_2$ , and set all other parameters and initial values to be the same as the true values.

**The Dynamics of Chinese Regional Development: Market Nature, State Nurture (Advances in Chinese Economic Studies Series) : Jane Golley: styleguide.expo.io.au: Books**

Shortly after the confirmation of human-to-human transmission, the Chinese authorities implemented an unprecedented cordon sanitaire of Wuhan

on 23 January to contain the geographical spread of the disease, followed by a series of non-pharmaceutical interventions—including suspension of all intra- and inter-city transportation, compulsory mask wearing in public places, cancellation of social gatherings and the home quarantine of individuals with presumed infections, those with COVID-19 related symptoms and their close contacts—to reduce virus transmission. In the shadow of power.

**Regional cooperation through the lenses of states: Why do states nurture regional integration?**

Key applies to both b and c. The politics of overlapping organizations: Hostage-taking, forum-shopping and brokering. We might therefore have overestimated the probability of resurgence.
