BAO BAO ISSEY MIYAKE

This special color, created by mixing Triporous into the thread used to make the fabric, fades less over time compared to conventional black dye, making the garments last longer.

Bao Bao Issey Miyake

With the aim of bringing joy to the wearers, this brand continually develops unique materials with a wide variation in colors and prints to bring you clothes that can be worn in all kinds of settings year-round. As a material characterized by such functions, Triporous is anticipated to have a wide range of applications, such as in the purification of water and air, and contributes to the realization of an environmentally conscious, recycling-oriented society.

Pieces are arranged to create infinite versatile shapes in this bag brand with an innovative concept and production method. For a special event like a wedding or holiday dinner, a mirrored clutch in platinum or gunmetal adds extra drama to your gown or cocktail dress.

me ISSEY MIYAKE

Through this encounter, we found new value in Triporous, which harnesses technology to transform rice husks, that would normally be discarded, into a new material. In order to develop this kind of responsible manufacturing, A-POC ABLE ISSEY MIYAKE continuously thinks about raw materials when creating fabrics. Add a pop of color to your favorite little black dress with a vibrant tote in glossy emerald or intense red, or elevate

your casual date night look with a bag featuring a lucent white prismatic design.
