The teacher arranges the learning environment, provides opportunity for student involvement, and, when appropriate, provides feedback to students while they conduct the inquiry Martin, 1983.

Instructional Models That Work For Teachers

In contrast to the direct instruction strategy, indirect instruction is mainly student-centered, although the two strategies can complement each other. The question should be addressed to the entire class before a specific student is asked to respond. Providing additional wait time after a student response also allows all students to reflect on the response prior to further discussion.
