## The Science and Practice of Ecological Restoration Ser.: Restoring the Pacific Northwest : The Art and Science of Ecological Restoration in Cascadia (2006, Trade Paperback) for sale online

Designing a network for butterfly habitat restoration: where individuals, populations and landscapes interact. Annual Review of Entomology 64:167-184. Schwartz is the author of the book,.

## The Science and Practice of Ecological Restoration Ser.: Restoring the Pacific Northwest : The Art and Science of Ecological Restoration in Cascadia (2006, Trade Paperback) for sale online

Fifty Columbia River salmon stocks have become extinct, and the remaining twenty-five are on a very expensive life support system Lichatowich 1999. All the major mammals of the North American continent still find homes in the region: grizzlies, wolves, lynx, cougars, bison, moose, elk, and

many more Chapter 15. The last retreat of the continental ice sheets was only some 12,000 years ago the ice was 5,000 feet thick at the Washington-British Columbia border , and the Northwest remains a land with many glaciers.

### **Restoring the Pacific Northwest: The Art and Science of Ecological Restoration in Cascadia (The Science and Practice of Ecological Restoration Series)**

The Queen Charlotte Islands, or Haida Gwaii, have been called the Canadian Galápagos, reflecting their remoteness from the main continent. However, projects like the Great Green Wall seem a great target for large amounts of aid because their metrics are easily trackable and their interference in human life minimal if planned carefully.

### **Restoring the Pacific Northwest: The Art and Science of Ecological Restoration in Cascadia (The Science and Practice of Ecological Restoration Series)**

A great site for background on a broad array of science issues is. Diverse ecosystems are distributed across this terrain, responding to elevation, rainfall, underlying geology, soils, aspect, and cultural influences.

### **Restoring the Pacific Northwest: The Art and Science of Ecological Restoration in Cascadia by Dean Apostol**

For instance, reconstructing along ocean shorelines can fight erosion by stabilizing the land. Perched peat bogs, or muskegs, with lodgepole pine *Pinus contorta* are also increasingly common in the north Pojar and MacKinnon 1994.
