### **Manual for courts**

Because the original case language is archaic and somewhat ungrammatical, I would rephrase it to require that the military jury be instructed that, despite his asserted defense of superior orders, an accused may be held criminally accountable for his acts, allegedly committed pursuant to such orders, if the court members are convinced beyond a reasonable doubt 1 that almost every member of the armed forces would have immediately recognized that the order was unlawful, and 2 that the accused should have recognized the order's illegality as a consequence of his age, grade, intelligence, experience, and training. VI Certified Questions Although the majority fails to do so, I would answer the three issues in this case which the Judge Advocate General has certified. That Manual gave as examples charging a soldier with disorderly conduct and assault, or failure to repair from a routine scheduled duty and absent without leave for the same period of time.
