Screening and Counseling Adolescents and Young Adults: A Framework for Comprehensive Care

In emergencies, patient care may be rendered in areas poorly suited for safe monitoring. Other leading causes included inadequate assessment of the patient's condition, and poor leadership or training.

Screening and Counseling Adolescents and Young Adults: A Framework for Comprehensive Care

Limits of the industrial safety model may occur as improvements in safety are undertaken.

Family

This allows a much more complete and clear picture to be formed of the facts of an event. Cheung AH, Zuckerbrot RA, Jensen PS, et al. Chronobiology International: The Journal of Biological and Medical Rhythm Research.

Steven A. Cohen Military Family Clinic

Healthcare providers meet to discuss a situation, record what they learned and discuss how it might be better handled. High quality evidence is necessary to drive changes in the health care system and policies that facilitate the practices that have been presented.
