Acerno R, Hernandez MA, Amstadter AB, Resnick HS, Steve K, Muzzy W, Kilpatrick DJ. With cuts to Medicare potentially looming in the new tax legislation, the U.

## 21st Annual Chronic Illness and Disability Conference: Transition from Pediatric to Adult

Caregivers who live with the care recipient are at increased risk of adverse outcomes.

## Introduction

Similar racial and ethnic differences were reported in a subsequent systematic review of dementia caregiving. The first provides thorough discussion and background on theoretical concepts of care, including a complete profile of current demographics and chapters on current models

of care, intervention components, evaluation methods, health information technology, financing, and educating an interdisciplinary team. These changes may be so subtle as to be nearly imperceptible at first.

### **Caregiver Health**

The risk for onset of distress increased progressively with the amount of time spent in caregiving each week.
