In Search of Theatre for Development in Malawi: a Modern History

A detailed political economy analysis was conducted by one of the co-authors using qualitative methods including interviews and group discussions. Il a d  but   en 2000 avec 10 membres. Strategic social accountability interventions by this definition specify the multiple links in the causal chain to arrive at eventual goals, addressing areas within each of the social accountability elements described above, while the tactical approach is concerned with a specific link in the causal chain, addressing only one element of social accountability e.

In Search of Theatre for Development in Malawi: a Modern History

The area is now economically completely dependent on Malawi. Traditionally, the use of theatre in a development environment has involved performing plays with a strong social message with little or no audience participation or discussion. Although the success of the bwalo forum meant that communities perceived it not as an activity bounded to a short-term project, but as a new, important and effective accountability structure that many wanted to continue, there has not been sufficient time for the bwalo forum to develop the internal resilience needed to continue without additional funding support.
