Retrospect of Western Travel, Volume 1 (of 2) by Harriet Martineau

The spirit of kink was very much alive in Berghain, which was part of the reason I had so badly wanted to visit the club. They were a fraction of the size, modestly squeezed in between all the surrounding buildings, though the classical design suggested that the holy buildings had been there much longer than their neighbouring structures. My hangover and day of sightseeing in the warm Helsinki sun had caught up with me, and when I stirred to check the time again it was already after one in the morning.

The night in east Berlin was eerily quite, and as we passed the remains of the Berlin Wall on our way to the club, we joined in with a somber moment of silence.

This title is cited and recommended by Books for College Libraries; Guide to the Study of the United States of America; Usiana; Literature of American History; and the Cambridge Bibliography of English Literature. I had mentioned that this was the last item on my Berlin bucket list, and that I had told myself I should leave the following day. The main event, however, was something else entirely.

As we descended beyond the levels of the dance floors, and bass lines that coursed through your body, we were finally able to exchange words without needing to shout at each other, and after our first verbal introductions I learnt that his name was Ralf. As a big fan of the drag performers and shows in my own city, it was pretty satisfying to see another quality performance from another city around the world. Returning to the upstairs bar for a drink, this time I decided it was my turn to rehydrate a little.

Despite being petrified about going alone to face the big scary doorman and get inside this legendary club, my first Berghain experience actually turned out to be fun, diverse, enlightening, and in general just simply amazing.

Ralf himself was Swiss-German, yet had spent half his adult life in Sweden. Eventually we arrived at a bar — I have to admit, when I took a moment to take in my surrounds, it looked like we were just off a highway in the middle of no where — but unfortunately it looked like whatever salsa dancing that had been going on was starting to wrap up. We moved to one of the smaller adjoining rooms, where lots of people were chilling out and hanging around, and found some space on one of the couches.
