### Introduction to Metaphysics by Martin Heidegger

Second, there are many philosophical problems that are now considered to be metaphysical problems or at least partly metaphysical problems that are in no way related to first causes or unchanging things—the problem of free will, for example, or the problem of the mental and the physical.

### Introduction to Metaphysics

It is the being projecting that is Da-sein--not that, if anything, which is projected or does the projecting.

### Introduction to Metaphysics by Martin Heidegger, Paperback

It is no longer possible to define metaphysics that way, for two reasons.

### Introduction to Metaphysics (Heidegger book)

For example, while a human baby cannot do many things that a mature human can do, the baby can already do many, many things that a mature snail cannot do.
