The treaty allowed the Dutch to maintain their trading post at Foot Huys de Hoop, which they did until the 1664 British takeover of New Netherland. In addition to dams, warm water discharges between 1978 and 1992 from Vermont Yankee Nuclear Power Plant in Vernon, Vermont released water up to 105 °F 41 °C degrees and the thermal plume reached 55 miles 89 km downstream to Holyoke. Initially named Agawam Plantation and allied with the southern settlements that would become the state of Connecticut, Pynchon's settlement switched allegiances in 1641 and was renamed Springfield in honor of Pynchon's native town in England.

## William E. Leuchtenburg Biography

A troubled feast; American society since 1945, by William E. It communicates innovations, trends, controversies, and challenges. Townshend officials on Friday urged commission members to end that rate freeze, but commissioners cited a lack of resources as one reason for denying that request.

Here, the author reflects not only on his strong faith at the end of the 1940s in what the TVA had achieved, but also on his evident conviction that the TVA model should have been applied to other regions in the nation, in this case the Connecticut River. Many towns along the Lower Connecticut River have enacted a cap on further development along the banks, so that no buildings may be constructed except on existing foundations.
